| PHYSICAL PROPERTIES | PACKAGING |
|---------------------------------|------------------------|
| Appearance: White powder | S226765-50 – 50 pounds |
| Color: White | |
| Odor: Bland | |
| Use rate: 1/4 cup per 50 pounds | |

DIRECTIONS: For use in washing machines: Add 1/4 cup bleach to washer as it is filling with water. For spot bleaching of washable fabrics: Soak spot in solution of 1-2 tsp. of bleach per quart of hot water. Set 15-30 minutes. For persistent spots, sprinkle crystals on stain, dip in boiling water or pour boiling water through stain. For spot bleaching of non-washable fabrics: Sprinkle crystals on spot, cover with cotton pad dampened with hot water. Keep pad damp until stain is gone. May require several hours. Rinse. A milk solution of 1 Tbs. per quart of warm water is a good soak for yellow spots or persistent color after spot removed. Before using on wool, silk or acetate, follow this test: Dissolve 1 Tbs. of bleach in 1 gallon of hot water. Soak an inconspicuous portion (seam inside of hem) of article for 1/2 hour. If no change in color of fabric has occurred, proceed with stain removal. For Plastic ware destaining: 1 Tbsp. per gallon of hot water. Soak plastic ware in solution for 30 minutes. Will remove difficult stains including coffee and blueberry.

STORAGE and HANDLING: Can cause eye irritation. Do not get in eyes. Harmful if swallowed. First Aid: Eye contact-Remove contact lenses. Flood eyes with water for at least 15 minutes holding eyelids apart. Ingestion-If swallowed, drink large amounts of water. Skin Contact-Wear gloves to prevent irritation. If irritation persists, seek medical advice.

Keep Out of Reach of Children. Industrial or Institutional Use Only.
